Accommodation Services for Adults with Learning Disabilities

I am writing in response to your request dated 18 November 2024 for information relating to supported living care accommodation in North Wales.

For ease of reference, I have reproduced your questions below and set out our corresponding responses.

- **Any updates to the document *Strategic Commissioning of Accommodation Services for Adults with Learning Disabilities* published by Audit Wales, or more recent documents containing similar information.** I have confirmed with the relevant audit teams that there have been no updates produced since the publication of the document in 2018, and no documents containing similar data produced more recently.
- **Any information to help understand the budgets currently available for supported living care accommodation with full time staff in North Wales, particularly current average costs per patient or average contract values.** We do not hold current information of the type requested. If you have not already done so it may be worth approaching the relevant delivery bodies for information regarding the costs you refer to.

We have published some more general information that might be of interest to you, particularly given the reference to North Wales. While not specific to adults with learning disabilities, the following documents can be accessed for information relating to care home placement commissioning from a few years ago:

[Commissioning Older People's Care Home Placements | Audit Wales](#)

[Care Home Commissioning for Older People | Audit Wales](#)

Also, while not focussed on care accommodation, our 2022 report on direct payments for adult social care includes coverage of services for people with learning disabilities, and can be accessed here:

[Direct Payments for Adult Social Care](#)

If you have any queries about my handling of your request, please do not hesitate to contact me.

Yours sincerely,

Information Officer
