

Picture of Public Services post 2011

12 March 2014

Thank you for your query of 7 March 2014. There hasn't been a Picture of Public Services report produced since 2011. However, since 2011 we have done specific reports covering similar ground in Health and Local Government:

Also, a member of the study team that produced the Picture of Public Services reports (Mark Jeffs), was recently on secondment with Wales Public Services 2025 and produced a report examining financial demand and other cost pressures on Welsh services to 2025
